DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-3, 6 and 10 are rejected under 35 U.S.C. 102(b) as being anticipated by Rodriguez et al for the reasons set forth in paragraph 3) of the previous Office action. Further, the coil reel hold down device of Rodriguez et al is “free-standing” as can be see in Fig. 9, with a “stand-alone” means 274 for effecting pivoting movement of the snubber arm 270 relative to base plate 268. The base plate 268 is secured to the floor 42.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 7-9, 11-12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Rodriguez et al for the reasons set forth in paragraph 4) of the previous Office action.
5. Claims 4-5 are rejected under 35 U.S.C. 103(a) as being unpatentable over Rodriguez et al in view of Orie for the reasons set forth in paragraph 5 of the previous Office action.

Response to Arguments

6. Applicant's arguments filed 4/28/03 have been fully considered but they are not persuasive. Applicant argues that Rodriguez does not anticipate various of the claims since Rodriguez does not teach a "free-standing" coil reel hold-down device which includes a "stand-alone" means for effecting a pivoting movement of the snubber arm relative to the base plate since it is part of a large, complex expensive feeding apparatus. However, as pointed out in the rejection above, Rodriguez et al discloses all of the claimed subject matter. Applicant further argues that Rodriguez and Orii are non-analogous art and that, apparently, the examiner has used hindsight to reconstruct the claimed invention. It is submitted however that both Rodriguez et al and Orii are directed to snubber mechanisms and that one of ordinary skill in the art would consider the teachings of both references in the consideration of claims 4 and 5. Furthermore, applicant has given no substantial reasons why the examiner is using improper hindsight in the rejection of claims 7-9, 11-12 other than to infer that the rejection is not proper. The rejections of all the claims are still considered to be appropriate.

Conclusion

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

Art Unit: 3654

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
